

## GEO - GEOGRAPHIC OUTREACH PROGRAM

GEO is a new Toledo Regional Chamber of Commerce program designed to provide members the opportunity to connect with others and access resources where it matters most to them...in their own geographic area.

Businesses and organizations will meet in a relaxed setting to network and personally discuss the things that matter to them (connect), hear updates on topics of interest (inform), or dialogue with experts on specific issues (ask) impacting their area and ultimately their business. Through targeted events held once a quarter in each of the Chamber's eight designated GEO regions, Downtown, Maumee-Holland, North, Perrysburg-Rossford, River East, South Toledo, Sylvania-West and the University Area, TRCC members will have the opportunity to connect with others doing business in their community and enjoy:

- Greater access to Chamber programming and membership benefits through quarterly events and programs generally within 15 minutes of their place of business.
- Maximized Chamber membership through relevant and localized programming and networking.
- Connections with others doing business in their community while engaging in targeted topics focused on localized community and economic development issues.
- Access to fellow Chamber members yielding significant professional and business relationships within specific geographic areas.
