

Department of Taxation

New OH|Tax eServices

On September 5, 2023, the Ohio Department of Taxation (ODT) implemented a new online system for Ohio taxpayers and tax preparers called OH|Tax eServices. This system modernized and replaced platforms that were previously utilized to manage Ohio's **individual** and **school district income taxes**. OH|TAX offers an online “banking experience” to simplify and enhance our online services for **individual** and **school district income taxes** while safeguarding taxpayer information.

This new system provides the following functionality:

- File returns and make payments
- Check refund status
- Electronic delivery & viewing of notices issued by ODT
- Respond to notices electronically
- File an appeal
- Web messaging with ODT
- Request and print transcripts and wage statements
- View previous five years of filing and payment history
- Update name and address information
- Complete Identity verification

Taxpayers and tax professionals can learn more about this system by visiting **tax.ohio.gov/myportal**. For additional assistance, please contact the Individual Tax Division at (800)282-1780.
